Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

Art Unit: 1771

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.3218 may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 1, 3-8, 10, 13-16 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-23 of copending Application No. 09/749,318 and claims 1-26 of copending application 09/796,942. Although the conflicting claims are not identical, they are not patentably distinct from each other because the instant claims are not limited to a fabric or fiber-containing material, while the claims of 318 recite that the fibers are woven and the fibers of 942 are interlocked. It would have been obvious to one of ordinary skill in the art to have formed the structure of 318 and 942 using other well known and conventional materials.

Art Unit: 1771

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

3. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by De Winter et al, U.S. Patent No. 3,623,924. De Winter et al discloses a sheet comprising a first portion comprising a sheet material and a second portion wherein the material has been removed. The sheet may comprise a plurality of second portions surrounded by the first portion. See fig 1. The statements regarding how the sheet may be folded are construed as being statements of intended use. Since the De Winter et al material would be capable of performing the intended use, it meets the limitations of the claim.

4. Applicant's arguments filed 2/25/04 have been fully considered but they are not persuasive. With regard to the double patenting rejections, Applicant argues that these rejections are overcome by the amendment limiting the claims to a material wherein the portions where the material is removed is surrounded by the other material. However, these limitations are also found in the claims of the copending applications, and therefore the rejection has been maintained. With regard to the rejection of the article claims over DeWinter, Applicant argues that the reference must be shown to be enabling. However, the claims are drawn to a sheet material having a particular structure. The DeWinter material has the same structure. The DeWinter material is capable of performing the intended use. Therefore, the rejection under 102(b) is appropriate. The reference is not required to disclose the intended use or enable it. Therefore, the rejection is maintained.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Nemoto et al, U.S. Patent No. 5,316,819.

Art Unit: 1771

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
